

QUALITY POLICY STATEMENT

Mainstream Waterjet's Quality Management System has been developed and implemented to comply with recognized international, regulatory, and customer standards. This policy is communicated to ensure that it is understood and applied within the organization.

Mainstream Waterjet is committed to:

- Providing high quality products in compliance with, and satisfying the expectations, of our customers' requirements.
- Maintaining our Quality Management System to conform and comply with ISO 9001 and AS9100 Rev D.
- Continuous improvement and review of our quality management systems to ensure customer satisfaction and our commitment to quality is achieved and on-time delivery is met.

The Quality Management System is fully supported by top management and all employees at Mainstream Waterjet.
